

SPSIB-3

19 September 1945

SUBJECT: Staff Photographs

TO: Chief, Operating Services Division

Numerous requests have been made for photographic prints of staff groups from negatives now in the files of Laboratory Branch. There is no objection to making a temporary release of such negatives of those staff groups as may be desired by the interested division or branch provided no expense is incurred to the Government and that no classified material is shown. This is interpreted also to mean a solid background such as trees or the side of a building in which the surrounding area is not apparent.
