

Belgadier General James H. Walsh, USAF  
 Director of Intelligence  
 Strategic Air Command  
 Offutt Air Force Base  
 Omaha, Nebraska

Dear General Walsh:

On behalf of the Special Study Group, I want to express our appreciation of the courtesies and assistance rendered us during our recent visit to Strategic Air Command. The briefings and the subsequent discussion gave us a deeper understanding of the functioning of the Command, and of its relations to other parts of our defense system. Our discussions with yourself and your staff have greatly helped us to focus our study on those elements which are most vital to the problem.

We were particularly impressed by the sharpening of intelligence, spurred by your efforts, on those elements of enemy strength which are of prime concern to us.

Very sincerely yours,

H. P. ROBERTSON  
 Chairman  
 Special Study Group
