Dear Mr. Langen:

Your letter of 17 May has been with me for some days waiting until I felt more like doing a little dictating. After being home for three weeks out of the hospital I had a relapse and had to go back to the hospital. Now after three more weeks I am going home again and hope to stay there for some time until more complete recovery has been made.

At the moment I will only add that I appreciate your promise to keep a lookout for the Bazeries book and to tell you that later on I hope to be able to send you some of the things you asked for.

Sincerely,

(for) WILLIAM F. FRIEDMAN
