SPSIS 311.5-General

SESTS-7

Barch 10, 1943

MER ORANDUA For: Lt. Col. Cook

1. A conference was held in Loom 1049, Sperations Building, this date, at 11:30 o'clock, for discussing the application of IRI Codatype equipment to the SICARA. Those present were:

TEM

Alis

ir. dolt

lir. Friedman liajor Rowlett Capt. Hiser

The conclusions reached at this conference are as follows:

- a. That it will be necessary for Capt. Norton to draft the contract covering the coupling of the standard Codatype units, exclusive of the scrambler mechanism, with the SIGARA.
- b. That this contract should be prepared in accordance with the legal aspect recommended b the Office of the Legal Director, Fatent Branch, OCSigO.
- c. Nothing will be done with the machines until Er. Holt's clearance has been obtained and contract is completed.
- d. The only elements of the equipment delivered to AMS on March 6, by Mr. Holt which might be considered as detrimental to security are as follows:
 - (1) The waring of the plugs added thereto for coupling with the GIGABA.
 - (2) The Standard IBM switch controlling:
 - (a) Auto 5-letter group spacing

(b) Carriage return

(c) byace and Z switching for encipher, decipher, and plain operation.

It was the concensus of opinion of those present that these points

are well known in the art and do not constitute a security violation. Confirmation of this with Lt. Col. Cook and Hajor Rosen is recommended.

2. Er. Holt was present at the preparation of this memorandum and concurs with it.

Frank B. Rowlett Major, Signal Corps
