

*Office Memorandum* • UNITED STATES GOVERNMENT

TO : AFSA-OOA

DATE: 14 April 1950

FROM : AFSA-OOB

SUBJECT:

It is my opinion that AFSA's own communication circuits, i.e., those to its field activities, require specially careful surveillance for security purposes. This is properly a function of O4. What can be done about the problem?

/s/ J.N. WENGER  
Captain, U.S. Navy  
Deputy Director, AFSA
