12 July 1954

Dr. Stewart S. Cairns Camp Medding Maping, New Hampshire

Bear Dr. Cairns:

Since Mr. Friedman is out of town for two or three weeks, I felt I should answer your letter of 10 July 1954.

Since you were here last, the MSA Registry for Consultants has been established and charged with the detailed administrative responsibilities associated with all our consultants. In view of this, we have turned over all our pertinent records to this unit. I have sent your query to them with the request that they look into the matter immediately and advise you accordingly.

Thank you for calling this to our attention.

Sincerely,

I. T. McDONALD Captain USAF Ass't to William F. Friedman
