▲ MAR 1954

Br. John von Heumann The Institute for Advanced Study Princeton University Princeton, New Jersey

Door Dr. won Meusmann;

Thank you very much for your telephone call. This letter will confirm our understanding.

First, with respect to my letter of 1 March 1954, in which on behalf of Dr. Cairns, the Chairman of the Board, and Mr. John C. McFherson, Board marker and Chairman of the Electronics Panel, I extended an invitation to you to join with the latter in the work of a special committee in the Electronics Panel: It is my understanding that you would not wish to promise to attend meetings of this special committee on any sort of regular or periodic basis, but that you would like to know whenever meetings are scheduled, so that if it is possible for you to attend, you could then participate in the capacity of a visitor or observer. I am of the spinion that this sort of an arrangement would be quite acceptable to Mr. McFherson and to Dr. Cairns, but I shall communicate your wishes to them and let them make the decision.

Mecond, with regard to my visit next week to see you and Professor Panofsky: Your courteque offer to meet Mr. Hiltman and me at Princeton Junction at 5:20 P.M. on Tuesday, 9 March, is gratefully accepted. I am sure we shall be very happy to call first at your home and them go on to the Massau Club, for dinner, as you indicated. Mr. Tiltman plane to leave Princeton the same evening, after our conference, on a train departing for New York City around 10 o'clock or so. As for myself, I thank you for making the room reservation for me at the Massau Club to spend the night. I shall plan to return to Mashington on Wednesday.

If not inconvenient, you might give Sam Wilks a call and tell bin that I will be in town and may call him either Tuesday night or Wadnesday morning for a brief social chat. Of course, if he is interested and would like to sit in on our discussions on the Voynich Mas., I am sure he would be very velcome so far as Mr. Wiltean and I are concerned; but whether you or Fredersor Panofsky wish to extend an invitation to him is up to you. I shall bring along my photostat copy of the Voynich, together with some other papers perhaps.

1 *4 MAR. 1954

Looking forward to meeting Professor Fanofsky and to seeing you again, I sm,

Sincerely yours,

WILLIAM F. PRIEDMAN Receial Assistant
